

Wireless Tank Monitor Terms & Conditions

David R. Bangs Fuels, Ltd.

Last Updated: 29 June 2020

Wireless tank monitoring is provided by David R. Bangs Fuels for its use in the delivery of propane and fuel oil products. The monitoring service, hardware, and associated technology are provided in an agreement with the monitoring service provider. Certain terms, conditions, and limitations apply to the provision of this service and are detailed below.

Hardware:

The tank monitoring hardware is property of the monitoring service provider and no transfer of ownership of the hardware is provided upon its installation. The same terms and conditions of the propane tank rental with Bangs Fuels apply to the monitor hardware.

Nee-Vo Application:

The Nee-Vo Application is provided free-of-charge to customers as desired. The access code for the application may be requested from Bangs Fuels.

Eligibility & Cost:

Tank monitoring is provided at no additional charge for automatic delivery propane accounts with an annual consumption equal to or greater than 1000 L.

Accounts with an annual propane consumption less than 1000 L may request tank monitoring, to be billed at \$60 + HST annually.

Fuel oil accounts may incur additional hardware costs for the installation of a tank monitor and float.

Limitations:

Monitoring service may be provided where network and signal strength permit. Bangs Fuels will not be responsible for any disruptions of service arising from the underlying network or monitoring hardware.

The monitoring of fuel levels does not imply a duty of care on the part of Bangs Fuels for regular or irregular consumption.

Notifications may be sent to the user's device and the user may communicate to Bangs Fuels through the Nee-Vo application. Bangs Fuels is not responsible for any disruption of service through the application or notifications sent to the user's device. Communications with Bangs Fuels through the application shall not be considered encrypted or secure and the user is responsible for content sent via the application.

The provision of monitoring service and access to the application are at the discretion of Bangs Fuels and may be modified or terminated at any time.
